Mark,

Thank you for your email and voicemail.

Your initial message stated you had already referred this matter to counsel in DC and that "your name has to go," so I awaited formal communication from your attorney rather than responding immediately.

Empower Baseball is a 501(c)(3) nonprofit youth charity organization doing good in the world by providing at risk, poverty stricken Dominican youth the opportunity to earn an education while they play baseball and girls softball in a safe, secure environment in Barahona, Dominican Republic since 2020. By doing so we EMPOWER them to break the generational poverty that they were born into, through the use of BASEBALL. We don't manufacture, sell, or distribute baseball equipment. Nor do we ever intend to.

I've retained counsel for the nonprofit, and they have advised me not to have any direct contact with you from now on.

Thank you and have a great evening,

Brian Straley
